

Summary	There is no validation and error message when user enters an age with maximum value
Reporter	Novia Rahma Nur Azizah
Priority	High
Severity	Medium
Date	6 June 2026
Description:	1. Login >> add user 2. Input age 999
Actual	There is no validation and error message when user enters an age with maximum value
Expected	System should validate the input and display an error message if the maximum age threshold is exceeded, preventing submission
